ITS ONLY LIMITATION IS YOUR OWN IMAGINATION!

Odyssey² is a great source of entertainment and learning. But you already know that. And now that you've purchased another Odyssey² cartridge, you're in for even more fun and excitement.

Without a lot of added expense. Because Odyssey² is a complete video game system, it doesn't require expensive add-ons. Extras that could have cost you hundreds of dollars more with other video game systems.

Remember. There's a wide selection of Odyssey² games to choose from. And most are programmable for

either a child or adult, a beginner or pro. Every game illustrated is available now. And more are always on the way. So keep exploring the entire galaxy of games available at your Magnavox dealer. Where the brightest ideas in the world are definitely here to play!

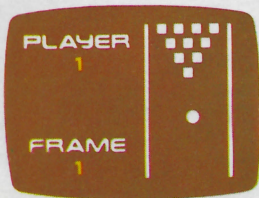

AJ9402

a field goal! There's a play-book full of offensive and defensive strategic options including varying running and passing situations. Just about anything is possible . . . including interceptions. Two players — two skill levels.

FOOTBALL

Pro-action at the peak of excitement. And you captain a team of realistic electronic superstars! Call the signals! Drop back into the pocket and pass-run for the yardage — or try

AJ9404

Digital scoring. Lanes change colors to let you know when it's your turn. One to four players — two skill levels.

BOWLING!

A true simulation of ten-pin strategy. You go straight for pins — or hook from either side of the alley! There's no going back. Bowl a strike or pick up that spare. Test your skill.

AJ9408

The outfielders can play to a batter's weakness. A batter can hit for a hole in the outfield. Singles! Doubles! Triples! Homers! Even sacrifice flies! Two players — one skill level.

BASEBALL!

This will take you out to the ball game in the purest sense! The pitcher can throw inside and outside curves! An unchallengeable electronic umpire calls the balls and strikes!

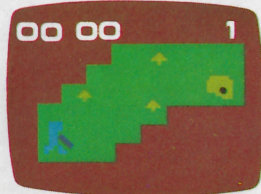

AJ9404

basketball. Get position. Shoot. But if you miss the goal, the ball hits the rim or the backboard and bounces back into the court. Two players — one skill level.

BASKETBALL!

Match your skill in fast-moving, exciting, one-on-one basketball action. For realism, there's even a built-in electronic gravity field! The electronic basketball bounces like a real

AJ9410

automatically to show a close-up of the green itself. Putt out — then go to a new hole with a different layout. You control backswing, distance and direction. Hit into the trees and your electronic golfer will pound the ground with a club and spout some extremely colorful electronic language!

COMPUTER GOLF!

A nine-hole, par 36, electronic golf course for one to four players. Realistic electronic golfers hit long drives down the fairway then chip up to the green.

The screen changes

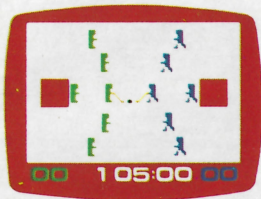

AK9418

slopes! The computer generates over 195,000 different runs! It's you against other skiers and a computerized timer that clocks you to 1/10 of a second. For one or two players — with three skill levels.

ALPINE SKIING!

This authentic electronic simulation of world class championship skiing is so realistic you can actually hear your skis cut through the powder as you traverse the

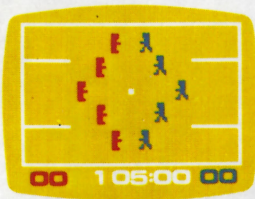

AK9420

automate play action! You control the stick man and goalie — the team automatically follows the puck. One or two players — one skill level.

HOCKEY!

You captain a full team of ice men. Battle for the puck at the face-off. Make an off-the-wall slap shot! Fake out the goalie and score! Unique on-screen electronic sensors

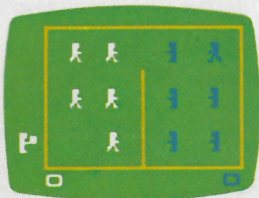

AK9420

and here comes all the action right to your own TV. Based on official soccer rules. One or two players — one skill level.

SOCCER!

Use your head (and feet) to score in this computerized version of one of the most popular games in the world. Soccer is now the fastest growing major college sport in the U.S.,

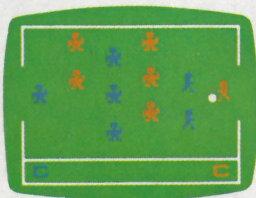

AA9422

you can only score points on your own serve. Play against another player or the computer itself. One or two players. One skill level.

VOLLEYBALL!

Fast authentic action with two regulation six-player teams! The ball is served from outside the court. The receiving team can pass the ball among the players or even spike a shot! But

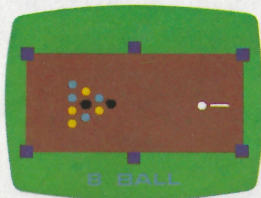

AA9423

electronic lightning rods give you control over individual ranks of "men" who do an automatic reverse flip whenever the ball changes direction. For one or two players. One skill level.

ELECTRONIC TABLE SOCCER!

This true-to-life electronic replica of a large, tournament soccer table is one of the most intriguing electronic games ever designed. Invisible

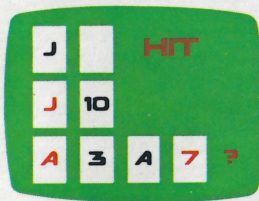

AA9424

POCKET BILLIARDS!

Hustle your friends at Eight Ball or Rotation on this authentic computerized replica of a full size pool table. Your electronic cue can rotate a full 360 degrees

AJ9401

under twenty-one! The computer keeps track of your winnings — and losses. Play against the computerized dealer. Good luck!

LAS VEGAS BLACKJACK!

Place your bets. The computer starts you off with a thousand dollars and shuffles the cards. You're playing by Las Vegas rules! Take one hit . . . or two, but stay

AJ9403

tanks. A visual signal tells you when you're running low. Include barriers, cannons, guided missiles and minefields. Two players — twelve skill levels.

ARMORED ENCOUNTER!

An astonishingly realistic simulation of armored warfare! The electronic tanks not only look like tanks and sound like tanks — you even control them like

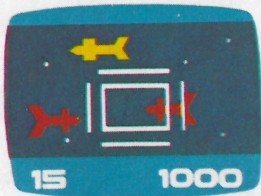

AJ9403

and aft trajectory patterns. On-screen digital readouts for game time and scoring. Two players — three skill levels.

SUBCHASE!

Low flying jets hunt for enemy subs lurking in neutral waters! And you have full control of plane altitude, submarine depth and speed. Game variations include forward, vertical

COSMIC CONFLICT!

You're the commander of the CENTURION, an Earth Federation star-ship guarding a remote corner of the galaxy. An alien invasion fleet has penetrated the galaxy's

AJ9411

outermost defenses! If you do not destroy it, Earth will be enslaved by the enemy hordes! Disintegrate enemy invasion transports with your laser blasters! Elude enemy star fighters. One or more players. One skill level.

TAKE THE MONEY AND RUN!

An electronic labyrinth of more than one trillion economic mazes! You and your opponent against the robots which represent different factors in the

AJ9412

economy. You may cooperate with the robots to thwart your opponent — or collaborate with your opponent to beat the robots! One or two players. One skill level.

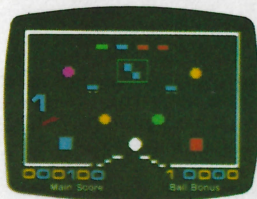

AK9414

controlled spaceship is equipped with lasers as you attempt to defeat alien invaders, save your galaxy, conquer the solar system! One or two players — two skill levels.

INVADERS FROM HYPERSPACE!

Protect your galaxy against alien invaders. Computer controlled flying saucers spin in from hyperspace, destroying everything in their path! Your hand-

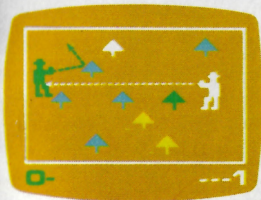

AK9415

flippers you can actually move to cover additional space. The computer monitors scores for up to four players. The winner is the player with the most points after five balls.

THUNDERBALL!

A wildly realistic video pinball game with all the action-packed excitement of the real thing. Quick reflexes are a must to operate the computerized thumper bumpers and shifting

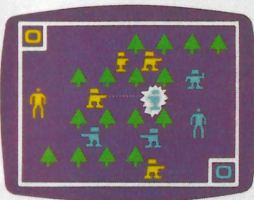

SHOWDOWN IN 2100 A.D.!

The ultimate in electronic shoot 'em up games! You control movement of the gun-fighter up, down and across the screen.

Shoot six times and

AK9416
 reload. But beware! There is an endless variety of obstacle patterns, ricocheting bullets and even a dramatic death scene! For one or two players.

WAR OF NERVES!

A fast-moving electronic strategy game! You lead your robot army through a forested maze across an electronic battle-field. Mission: out-manuever the enemy force and capture their

AK9417
 general! Your troops armed with stun guns that they fire at will. The maze keeps changing after every encounter. One or two players — one skill level.

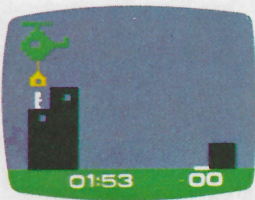

AK9419

to the surface. Fire your thrusters intermittently to conserve your fuel. You'll need it to blast off and link up with the mother ship as it changes speed and direction. One or two players — one skill level.

OUT OF THIS WORLD!

You're inside the capsule of an electronic spaceship. The mother ship orbits the planets as you and your opponent maneuver your spacelanders down

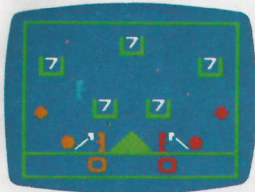

AK9419

It takes precision flying to get your chopper into position and board the survivors. One or more players — one skill level.

HELICOPTER RESCUE!

This daring helicopter rescue mission is a race against time! You only have two minutes to save as many people as possible from disaster at the Doomsday Hotel.

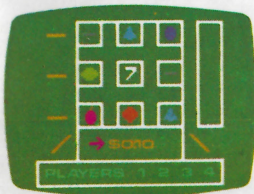

AA9425

your ball off the Magic Mountain and get a new set of numbers. But watch out for the robot Trouble-shooter. He loves to scoop up your stray balls and send them careening down to your opponent! One skill level. One or two players.

PACHINKO!

This cross between a pinball machine and a slot machine is an electronic evolution of one of the most popular games from the far east. If you don't like the odds, you can bounce

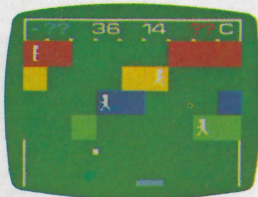

AA9426

plums and cherries fall into place. You can win in five different directions on each spin, or lose! The computer keeps track of the money. One skill level.

CASINO SLOT MACHINE!

Lady Luck is alive and well inside this simulated one armed bandit. Place your bets with the computer and pull the lever. Free wheeling melons, bells,

AA9427

you could. They may replace disintegrated blocks or rebuild barricades. One or two players. One skill level.

BLOCKOUT!

You have ninety seconds to break through a fourth dimensional barricade — but you have to outwit some crafty electronic demons who have the power to stop

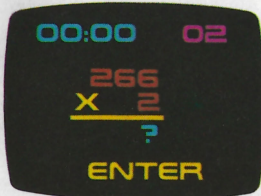

AA9427

try to beat the computer. You can even watch the computer play itself. One or two players. One skill level.

BREAKDOWN!

You have one minute to bust all the blocks off the screen. But you better be quick. Because electronic demons keep putting them back. Challenge another player or just

AJ9405

answers, and sings out with a musical cheer for every ten correct solutions. One or more players — three skill levels.

MATH-A-MAGIC!

Makes addition, subtraction, multiplication and division fun to practice. It even presents primary level algebraic challenges! The computer presents problems, evaluates the

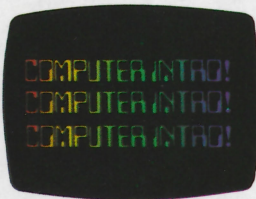

AJ9405

the same number. The computer responds with the same number and one more. Your turn again. For every right answer, the computer will add one more number to the sequence. How far can you go? One or more players.

ECHO!

A great brain drainer that starts off easy. Four numbers appear on the screen. The computer lights up one to the sounds of a musical tone. You echo the computer and press

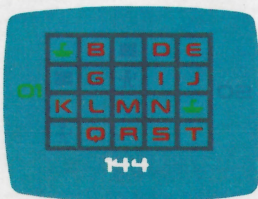

AJ9406

computer in an assembler language. If you master this one, you will have come a long way in understanding computers and how they work. But remember. This game is not for everyone. It is designed specifically for those individuals cognizant of the computer age and its challenges.

COMPUTER INTRO!

This cartridge turns your Odyssey² into an electronic teacher of computer theory and technology. Learn how to program and run a real microprocessor

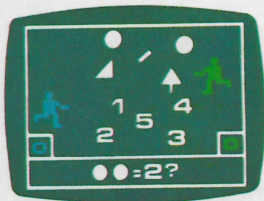

AJ9407

symbol appears. If they match, the player scores. The trick is to remember what symbols have appeared in which boxes. For two players — with one skill level.

MATCHMAKER!

An innocent looking matrix filled with letters appears on the screen. The first player presses a letter on the keyboard and a symbol appears in the box. Pressing a second letter, a second

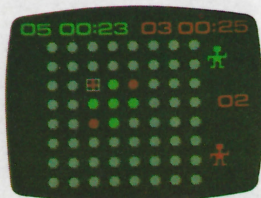

AK9413

and obtain the reward. The level of difficulty gradually increases as more correct answers are completed. For one or two players — with built-in progressive degrees of difficulty.

I'VE GOT YOUR NUMBER!

This game was designed for children, but can also be fun for adults. Players must capture the correct object or number to complete an equation

AK9421

profoundly addictive. Play against the computer or another player. A digital timing handicap system gives a newcomer a good chance to upset an experienced player.

DYNASTY!

The origins of Dynasty is the ancient Chinese strategy game of GO, which was first played by the nobility. Dynasty is deceptively easy to learn, but its infinite variations make it
